

Iron County Register

IRONTON, MO. - SEPT. 17, 1914.

E. D. AKE, EDITOR.

VOLUME XLVIII. NUMBER 15.

MAINE elected a Democratic Governor and Legislature last Monday.

D. C. McCLEUNG, Penitentiary Warden, last week recovered a \$20,000 judgment in the Callaway Circuit Court against the St. Louis Post-Dispatch. That paper had made various charges against the Warden, and the suit for libel followed. An appeal will probably be taken.

There is some interesting matter on the eighth page of this paper which it will profit you to read. It tells why the proposed Amendment No. 1 should be defeated. Further reasons will be given in the successive issues of the REGISTER. The Amendment is insolent and vicious.

The following was an Associated Press dispatch from Bordeaux, France, printed in Friday's Post-Dispatch: "The following prediction, by an Indian magi, was published in the Godphor Almanac last January: 'In the month of July, 1914, all Europe will be overwhelmed by a war between the great Powers, and terrible disasters will result. But in November a great Emperor will lose his crown and hostilities will cease.'"

How is it that the Post-Dispatch is the only city paper that has anything to say about the Bankers' Trust collapse? It is a subject of deep interest to many Missourians who eagerly desire full information thereon. Did the P.-D. make a "coop" or is it telling a lot that isn't true? I'd really like to know the inwardness of the silence of its contemporaries. To me it seems inexcusable, for if the P.-D.'s statements are false, they ought to be refuted; if true, publicity is due a deceived and humiliated public.

When the first slump in Bankers' Trust was announced some local holders of its stock blamed Democratic legislation for the downfall. But subsequent developments of the Trust's peculiar practices have no doubt enlightened somewhat their trustful understanding. Paying excessively conceived dividends leads to disaster inevitable. I am sorry that so many good people must lose. They are wiser than they were, no doubt, but the cost of their schooling is outrageously excessive.

DURING Republican rule "Protection to the American laborer" was made the slogan to win his applause and favor—and it won for years, in defiance of the fact that the only thing on the free list was the "pauper labor" that was said to menace his welfare. The inevitable result followed: our mines and manufactories were and are crowded with low-priced imported laborers in competition with free-born American workmen. The Huns and Slavs are in evidence as to the beneficence of Republican "protection."

OUR Republican friends ought to be happy. The "pauper labor of Europe" has ceased to threaten the destruction of American industries; it is otherwise engaged. A Chinese wall could not so effectually bar commercial intercourse with the peoples across the sea and Free Trade England is cooped within her narrow isles these days. Yet our businesses do not seem to extraneously flourish. Is there aught the matter with the boasted, Home Market—the one necessary attribute to happiness and prosperity of recent years when we were making the "foreigner pay the tax?"

Bellevue News.

The recent rains have given renewed life to vegetation. Never in life did we see the grass looking so spring-like so late in September. Farmers now look at the future prospects for business altogether from a different angle from what they did two months ago. They are getting down to work again, making preparations to sow a large crop of wheat, now that the price is going steadily upward, and perhaps will reach two dollars a bushel, ere another crop of that cereal is raised. Two dollar wheat! That sounds mighty good to farmers, and while it's pretty hard on the man who has to buy his bread-stuff, it is good for the farmer.

The coming winter is going to be one of the hardest for farmers in this locality have ever experienced, inasmuch as the crops have been practically a failure. But should the weather remain warm and open until late in November or December (and we predict it will), this fact will enable live stock to live on the pastures and range until Christmas, which will very materially help the farmers out.

Wallace Hill, son of Judge R. J. Hill, spent several days recently visiting friends and relatives in this valley, returning home on No. 22 Sunday afternoon.

H. Latham and wife were in Bismarck Sunday attending the Burke-Hobbs meetings.

David Cox, who has been employed for the past year and a half by Mr. E. M. Logan, contemplates removing to California in the near future. The writer knows much of the conditions in California. Not many men in California will prove to be such friends of the poor and needy as E. M. Logan has proven himself to be. Having lived a neighbor to Mr. Logan for the past four years, the writer knows whereof he speaks.

D. C. Stephens has removed from Mr. Long's farm to near Caledonia, and Mr. Burton and family now occupy the house vacated by Mr. Stephens.

Wm. Kneiss has removed to Bismarck where he has employment.

Wm. King made a trip to DeSoto Sunday afternoon.

Paul Calvert and Emmett Forshoe, of Ironton, recently stopped over night with J. T. Patterson. While here they had quite a time riding the

young horses. Emmett is a dandy rider, indeed. We believe he could easily ride a giraffe, without bridle or saddle.

Victor Boring spent Saturday and Sunday at home.

J. T. Patterson came home Saturday from Mineral Point where he is teaching. He says he is well pleased with the school at that place, and that they enrolled 119 pupils the first day. Mineral Point has a \$2700 concrete school house, 72 ft. by 36 ft., with a hall 18 ft. by 10 ft. in front. There is a folding petition between the two rooms, and each room is equipped with modern single seats and desks, with a seating capacity of 160 pupils. Besides this there is a colored school in the district. Total wages paid all teachers is \$135 per month.

N. Bennett informed the writer that he had purchased 40 acres of land near Little Rock, Ark.

Logan & Campbell now have an up-to-date mill, they having recently put on a very expensive and useful machinery costing over \$500. They are now prepared to make the very best of flour. Considering the price there is none better.

Mrs. R. E. Johnston contemplates making a trip to Los Angeles, California, in the near future.

Miss Myrtle VanNort returned home Saturday from St. Louis, where she has been visiting friends for the past week or two.

T. E. Wallen was at Iron Mountain Saturday looking after the interest of the Telephone Company.

Mrs. Daisy Edmonds and children of Bismarck visited relatives her last week.

Wallace Hill of Aurora was a visitor here last week as guest of his sister, Mrs. H. L. Bell.

Miss Grace McColl was shopping in Ironton last Saturday.

Edwin White of Caledonia was in our midst last Friday.

Smith Bakiridge of St. Louis visited in the home of Mrs. Lee Moore last week.

Miss Alah Smith of Caledonia was a visitor here the first of the week.

Mrs. R. J. Paulus spent Saturday and Sunday in Bismarck attending the meeting.

Miss Florence Hatley left last Monday for Fredericktown where she will again enter Marvin College.

P. M. Henderson of Clifton Hill is visiting his daughter, Mrs. Anna Harrelson.

Wm. Kneiss and family moved to Bismarck Saturday.

T. E. Bell and B. W. Bynum attended the Burk and Hobbs meeting in Bismarck last Thursday evening.

Mrs. J. R. Frohough, of Murphaboro, Ills., visited her grandfather, P. G. Carly, a few days last week.

Huston Latham spent Sunday in Bismarck.

Mrs. H. D. Bollinger and family left last Wednesday to make their home on their farm 4 miles from Greenville.

Mrs. Frank Hughes and children of St. Louis are visiting Mrs. Hughes' parents, Mr. and Mrs. James Wood.

The Bellevue Library Club requests that we make mention of the fact, that on next Friday evening they will give a pie and ice cream supper at the Hall. The proceeds to be used to purchase more books for the library.

The Club is to be commended for this method of bettering the community in which they live. Not many things can help more—especially young people—than to place in their reach good books. Let us encourage these young people of the Club, by our presence on Friday evening, September 18th.

Notice.

The ladies of the Presbyterian Church will hold a Home Baking Exchange, Saturday, September 19, 10 to 2 o'clock, at Gay and Kindell's Store. Come and get some good things to eat.

Try Cherry Chic. It's fine.—Adv.

Ready for To-morrow ?

Horses digest their feed less thoroughly than other farm animals. In order to insure thorough digestion of all the food eaten, and to make your horses render for next day's work, add to their evening feed a teaspoonful of—

Bee Dee STOCK MEDICINE

It will lessen your feed bills.
It will increase your profits.

I am using Bee Dee STOCK MEDICINE with my horses regularly and find it a saving proposition on feed. It also makes them healthy, thriving and clean.
